## **Tethys Technology Wins Best Options Trading Platform at the Wall Street Letter Institutional Trading Awards 2016**

**New York – February 24, 2016 – [Tethys Technology Inc.](http://www.tethystech.com)**, an industry leader in financial software development for the capital markets, today announced that its TethysEMS™, the multi-asset, broker-neutral trade execution platform was named as the winner of Best Options Trading Platform – Vendor by the Wall Street Letter Institutional Trading Awards at ceremony held on Tuesday, February 23, 2016 in New York.

The WSL Institutional Awards recognizes excellence among providers to the institutional trading industry, specifically rewarding brokerage firms, exchanges, and financial technology companies for achievements and innovation over the past year. The publication appoints a panel of independent judges who determine the winners based on a mixture of quantitative and qualitative performance indicators.

Tethys Technology's TethysEMS trading execution system supports global trading of equities, option, FX and futures. Tethys has focused on developing analytics and toolsets that allow institutional clients to achieve optimal trade execution and execute diverse investment strategies while managing risk and conducting TCA across asset classes using a single robust platform.

“We are honored to receive the award of Best Options Trading Platform from the Wall Street Letter. This award is a result of our team's continuous focus on innovation. We are very proud to be the only product that can trade sophisticated options strategies around the globe.” said Mary Cogger, Tethys Technology Director of Sales.
